### Sensational Advertising!

We do not believe in Sensational Advertising. We will not practice it, nor do we think it judicious. The public/ do not care to read clap-trap announcements, which, when tested, fail in fulfillment of all but promises.

### B. STINE, the Boss Clothier

makes no pretensions by announcing, in flaring advertisements, that he is giving goods away, but admits like every honest dealer ought to, THAT HE IS MAKING A LEĞITIMATE PROFIT, and will continue to do so on all FRESH SEASONABLE GOODS, for which we pay cash at all times. Past experience has shown us that the public in general would rather pay a profit, especially when the same articles are cheaper with the profit than others who claim to sell at cost and below.

To the trade, who wish to investigate the matter, we would say, LOOK AROUND, POST YOURSELF, AND AFTER YOU GET THROUGH COME AND SEE

THERE is a powerful temperance lecture as well as a striking argument in favor of high license in the report of the Grand Jury of St. Louis, which attributes 80 per cent. county to the saloons. But this is confirmation of a fact that is known to all who have studied the criminal and social statistics of the great cities of our land. The report of the Coroner of New York for 1882 developed the fact that a proportion nearly so great of the fatalities and casualties which came within his ofwere the direct result of intempor ance, and if the Coroner of Cook county kept any such statistics they human life. But what are we going to do about it: It cannot be prevented, and it can only be partially cured. But as the facts stand they should convince people that the traffic which produces this crime and out of work on account of closing pauperism, which imposes this ex pense upon the body politic, which makes police and prisons, almstion is increasing. It is impossible houses and hospitals necessary, should pay the cost of their support, or at least a fair proportion of it. Inter-Occur.
